Our Services

European programs are an important factor in the acquisition of external funding, but also serve as a major platform for high ranking international collaboration. However, in their rules of participation as well as financial modalities EU programs differ vastly from national funding programs. To meet the resulting need for information and advice services, the EU-Liaison Office Hannover/Hildesheim has been established.

What can we do for you?

- We provide a comprehensive overview of European funding programmes and offer support with identifying suitable funding schemes for your ideas as well as support during the proposal and implementation phase of your EU projects. Gladly we arrange a meeting tailored to your needs at your convenience.
- We support you in identifying partners for collaborative projects (Enterprise Europe Network).
- We advise on financial support measures for coordinators by the Ministerium für Wissenschaft und Kultur.
- You find the latest information on upcoming calls in European and national funding programs in our monthly newsletter Förderinfo. At our website you can register for the Förderinfo newsletter (http://www.dezernat4.uni-hannover.de/foerderinfo.html).
- First-hand information is part of our information events with speakers from the National Contact Points and the European Commission. At our website you can register for the events newsletter (http://www.dezernat4.uni-hannover.de/veranst_abo.html).
- We offer to present information on EU funding programmes as speaker at your events, such as project meetings in the region Hannover/ Hildesheim or in-house workshops.
- If you are interested in coordinating an EU project, but hesitate to do so due to the administrative burden, you may use our project management service USER-M. Administrative tasks such as financial monitoring, supervising deadlines, resolving legal and financial issues is part of the service.

Whether you wish general information on European funding programs or you have specific questions, feel free to contact us about all EU-funding related matters.
